From: James H. Stewart, Jr.   
Subject: Administrative Notes

I. Board of Regents' Meetings for June and July

A special meeting of the Board of Regents will be conducted on Wednesday, June 18, 1975. Chairman C. Quentin Abernathy has set 2:00 p.m. as the time for committee meetings and 3:00 p.m. for the board meeting.

In order for you to mark your calendars, I also want to mention that the date for the final regular quarterly meeting for the 1975 fiscal year is July 9, 1975.

II. Enrollment for First Summer Term 1975

The official enrollment for the first term of the summer is 750 as of the fourth class day. This is an increase of some 43 percent over the enrollment at the same time one year ago.

III. Comments Relative to University Appropriations for Fiscal Years 1976 and 1977

Anticipating that the Governor will not alter the appropriation for our institution as passed by the legislature before signing the general appropriations bill into law and therefore anticipating that we will finally be funded at the \$17,745,199 level for the biennium beginning September 1, 1975, I feel that the board of regents should be pleased with your efforts during the 64th legislative session. In my opinion your success in achieving this level of funding will insure that the program of the university can continue to move forward in a very positive manner with appropriate growth and development over the next two years.

I know members of the legislature who assisted us during the legislative session would appreciate hearing from members of the board. Each of you may wish to write selected individuals from the following list:
